## **Impact Networking Scores with Chicago Blackhawks**

Inks multi-year deal as an Official Sponsor

The Chicago Blackhawks and Impact Networking have entered into a new, multi-year corporate sponsorship that gives Impact Networking a significant presence during all Blackhawks home games at the United Center, including dashboards, LED displays and sponsorship of the NHL Impact Plays of the Week. Impact will also be hosting four Technology Showcases at the United Center for customers before select games this season.

“We are very excited to announce this new partnership and look forward to working with one of the fastest growing companies in Chicago. Their cutting edge business solutions technology is a perfect fit for our corporate fan base,” said Jay Blunk, Senior Vice President of Business Operations for the Chicago Blackhawks.

“We are thrilled to partner with an Original Six team with such rich history and tradition. The speed of the Blackhawks’ resurgence in the marketplace parallels with our growth, so we saw it as a natural fit,” said Frank Cucco, Chief Executive Office of Impact Networking.

Based in Waukegan, IL, Impact Networking recently made the esteemed Crain’s Chicago Business FAST FIFTY list. The company helps businesses create, distribute and manage documents by providing leading-edge solutions, support and technology. Impact’s solutions include: creative services for establishing and maintaining brand identity; document management; scanning services for digitizing back files; networking and telecom services for connecting customers and employees; and digital office equipment for printing, copying, faxing and scanning with speed and cost efficiency.
